

YOUR PARTNER IN WHOLESALE MARKET

ADDRESSING THE ENERGY NEEDS OF OUR CLIENTS SINCE DEREGULATION BEGAN

Beamcom Energy understands that big consumers often need a different approach to their procurement. Whether they are government departments or private entities, We provide larger end-users direct access to the wholesale markets.

We want to be your Best Decision in Wholesale Energy Procurement.

With the right resources, you can stay abreast of important developments in the energy markets. We provide useful market intelligence relevant to your organization. We develop clear, actionable plans that enable you to act on market opportunities as they happen. Our dedication to being your Best Decision ensures your company will have the best wholesale opportunities.

Our comprehensive approach includes the following services:

- Energy pricing and market volatility analysis
- Regulatory changes and legislative updates
- Innovative energy sustainability initiatives
- Effective physical and financial hedging options
- Successful trends in energy efficiency projects
- Energy procurement and natural gas purchasing practices
- Supervision of construction of natural gas pipelines or electric power generation facilities
- Activity on exchanges (NYMEX, AECO, EPEXSPOT, EEX, IPE, Powernext, EEX, Nordpool, ERCOT, IDEX, MISO)

We have the people, processes and technology needed to save money and improve processes for your company. Contact us to learn more.
